REGULATIONS

WHICH GOVERN THE ADMISSION OF CANDIDATES INTO THE NAVAL ACADEMY.

Application, addressed to the Secretary of the Navy, can be made at any time, by the candidate himself, or by his parent, guardian, or any of his friends, and his name will be placed on the register. The registry of a name, however, does not give any assurance of an appointment. No preference will be given on account of priority of application. No application will be considered where the candidate is under or above the prescribed age; where the precise age, and actual and fixed residence, are not stated; and where the applicant is not a resident of the Congressional district of the State from which he applies.

The law limits the number of Midshipmen to four hundred and sixty-four, and requires that this number shall be divided among the several States and Territories, with reference and in proportion, as near as may be, to their number of representatives and delegates to Congress: that appointments shall be made from those States and Territories which have not their relative proportion on the Navy list; and that the individual selected for appointment shall be, in all cases, an actual resident of the State and Territory from which the appointment purports to be made. It is further required by law, that appointments from each State shall be apportioned, as nearly as practicable, equally among the several Congressional districts therein, and that the person so appointed shall be an actual resident of the Congressional district of the State from which appointed, and be recommended by the member of Congress representing the district in which he resides.

The selection of candidates is made annually on or before the 1st of June, and candidates who receive permission, will present themselves to the Superintendent of the Naval Academy between the 20th and 30th of September. No candidate will be received into the Academy at any other time. Upon reporting to the Superintendent, candidates will be examined by a Board of Medical Officers, and by the Academic Board of the Academy, as to their qualifications for admission into the Academy.

No candidate will be admitted into the Naval Academy, unless, at the time of examination, he is found qualified, in the opinion of the Medical Board, to discharge the arduous duties of an officer of the Navy, and shall have passed a satisfactory examination before the Academic Board.

If both these examinations result favorably, the candidate will receive an acting appointment as a Midshipman, become an inmate of the Academy, and be allowed his actual and necessary travelling expenses from his residence to the Naval Academy. If, on the contrary, he shall not pass both these examinations, he will receive neither an acting appointment nor his travelling expenses.

A candidate who has once presented himself for examination, under the permission of the Department, and has been rejected, cannot be allowed to present himself for examination a second time.

No one can receive a warrant as a Midshipman in the Navy, unless he be a graduate of the Naval Academy.

QUALIFICATIONS.

Candidates must be over fourteen and under eighteen years of age at the time of the examination for admission; must be free from deformity and disease and imperfections of the senses. They must be of good moral character, able to read and write well,—writing from dictation and spelling with correctness,—and to perform with accuracy the various operations of the primary rules of arithmetic: viz., numeration, and the addition, subtraction, multiplication, and division of whole numbers.

Any one of the following conditions will be sufficient to reject a candidate; viz.—

1. Feeble constitution and muscular tenuity; unsound health, from whatever cause; indications of former disease; glandular swellings, or other symptoms of scrofula.
2. Chronic cutaneous affections, especially of the scalp, or any disorder of an infectious character.
3. Severe injuries of the bones of the head; convulsions.
4. Impaired vision, from whatever cause; inflammatory affections of the eye-lids; immobility, or irregularity of the iris; fistula lachrymalis, &c., &c.
5. Deafness; copious discharge from the ears.
6. Loss of many teeth, or the teeth generally unsound.
7. Impediment of speech.
8. Want of due capacity of the chest, and any other indication of a liability to a pulmonic disease.
9. Impaired or inadequate efficiency of one or both of the superior extremities on account of fractures, especially of the clavicle, contraction of a joint, extenuation, deformity, &c., &c.
10. An unnatural excurvature or incurvature of the spine.
11. Hernia.
12. A varicose state of the veins, of the scrotum and spermatic cord (when large), sarcocele, hydrocele, hemorrhoids, fistulas.
13. Impaired or inadequate efficiency of one or both of the inferior extremities on account of varicose veins, fractures, malformation, (flat feet, &c.), lameness, contraction, unequal length, bunions, overlying or supernumerary toes, &c., &c.
14. Ulcers, or unsound cicatrices of ulcers likely to break out afresh.
